Let us tell you Kevin Reilly's story

Kevin Reilly has strength and resilience that most of us can only dream of having. As an NFL alum, he was used to getting knocked down. But as the **oldest known surviving Desmoid tumor patient**, he learned how to get right back up again. His story and message are unforgettable.

The work ethic of an athlete inspires a crowd. The resilience of a cancer survivor moves people to believe that anything is possible. The passion of a bestselling author teaches others about the importance of telling stories. **This is Kevin Reilly.**

Reilly's career took off when he earned the chance to play for his hometown team, the Philadelphia Eagles. All of his dreams seemed to be coming true until the unthinkable happened. What seemed like a routine shoulder injury turned out to be a rare tumor. This ended his NFL career and ultimately led to the amputation of his left arm, left shoulder, and top four left ribs.

If put in his position, many people would have given up. But Kevin Reilly is not like many people. Three decades after his tragedy, he's become a **highly sought-after motivational speaker**.

He has been a speaker in such places as the Walter Reed Army Medical Center, BlackRock, Merrill Lynch, national conferences for Orthopedics and Orthopedic Surgeons, numerous colleges and universities, and more. His unwavering faith also led him to become a sought-after speaker for Catholic groups, as he openly discusses his religious upbringing and its influence on his recovery and survival.

A story as compelling and influential as Reilly's might seem like it would be difficult to relate to. But Kevin Reilly manages to draw a seamless connection from his own struggles to the ones that audience members might be facing. If you're looking for a speaker with a powerful message, look no further. **Kevin Reilly is a force to be reckoned with, on and off the field.**
